

# MY01-05 Subaru WRX

# HORSEPOWER PACKAGES

Through extensive dyno and track testing, we have combined a selection of power packages that offer great "Bang for your Buck". The Drive In and Drive Out package approach takes the guesswork out of product selection, letting you focus on the fun part, making power! So to discuss a suitable package for your specific needs don't hesitate to contact us!

## TYPE ① +20kw

**"Good power gains, noticeable power and torque increase across the board, with zero down sides."**

- 1 x HPFlash ECU software upgrade
- 1x Hyperflow cold air intake
- 1 x Before & after graph showing increase in power & torque
- 1 x All labour to fit/tune/test/vehicle

Power Package Total \$1,295

## TYPE ② +35kw

**"Add 40kw at the wheels and it sounds great. Check out the graph, more torque and more power everywhere! Again, zero down sides."**

- 1 x TurboXS 3" S/S turbo back exhaust
- 1 x Walbro 500hp in tank fuel pump replacement
- 1 x Hyperflow Cold Air Intake pipe & filter
- 1 x HPFlash ECU software upgrade
- 1 x Before & after graph showing increase in power & torque
- 1 x All labour to fit/tune/test/vehicle

Power Package Total \$3,595

## TYPE ③ +60kw

**"A massive rush of power, the larger turbo has a power delivery all of its own. The Jason Bourne of power adders; stealth, smooth but very aggressive! Action Packed!"**

- 1 x TurboXS 3" S/S turbo back exhaust
- 1 x Hyperflow Cold Air Intake pipe & filter
- 1 x Walbro 500hp in tank fuel pump replacement
